

PRODUCT SPECIFICATION	It is a mixture of several species of bacteria of the genus <i>Bacillus</i> , with a high capacity of enzymatic production (cellulases, lipases, proteases, amylases, etc.), which degrade quickly organic animal or vegetable waste, giving excellent biodegradability during water and wastewater treatment.
COMPOSITION	Mixture of lyophilized non-pathogenic microorganisms. <i>Bacillus</i> sp: 4 billion viable microorganisms per gram.
PHYSICAL FEATURES	Straw-colored powder.
USAGE RATES	<u>For water and wastewater treatment:</u> consult Ultrateck Laboratories.
SECURITY MEASURES	Wear a mask and gloves during handling. Avoid contact with eyes. Do not ingest the product. Do not store near food or leave close to children.
COMPATIBILITY	Do not combine with other products.
PACKAGING	Available in 3 high-density polyethylene containers and 20 kg bag.
STORAGE	Closed containers, in a dry place. Do not storage below 0°C or above of the 40°C.
